

OSA-0328-62  
Copy 5 of 7

10 July 1962

MEMORANDUM FOR : Chief, Procurement Division  
Office of Logistics, DD/S

SUBJECT : Request For Contract to Develop  
Radar False Target Repeater

1. It is requested that a contract be written with the Systems Research Laboratories, Inc. (SRL) of Dayton, Ohio to build and test a radar false target repeater as described in the attached proposal No. 441-T dated 6 June 1962. The proposal divides the program into four phases, only two of which (Phase I and III) are of interest for purposes of this contract. The reason for these phases only is to determine initially the feasibility of the techniques prior to developing and deploying the complete system. Initially proposals were sought from three firms, [redacted], Inc., HRB-Singer, and Systems Research. HRB was not interested and the [redacted] proposal was too high in cost (\$75,000) and technically questionable. The SRL version is technically sound and reasonable in cost. [redacted]

[redacted] SRL was further selected due to their proximity and clearances with Foreign Technology Division of AFSC at Wright-Patterson. This liaison will keep SRL apprised of current information on the target radar of interest and thus reduce travel time and excessive Agency participation.

3. Necessary contacts at SRL are:

Mr. [redacted] (President)  
Mr. [redacted] (Vice President)

Systems Research Laboratories, Inc.  
500 Woods Drive  
Dayton 32, Ohio  
(513) CHapel 4-4051

25 YEAR RE-REVIEW
